

# Anti-Graffiti Powder Coatings

**TAKE IT ALL OFF!**

Graffiti is a constant problem in our society today. Besides being unsightly, graffiti is harmful to our infrastructure and costly to remove. **X-Graf®**, Protech's line of anti-graffiti powder coatings, now makes it easy to clean away the eyesore that is graffiti. These powders are formulated to allow the easy removal of graffiti using readily available solvents. They are extremely durable, corrosion and stain resistant and demonstrate excellent weatherability. **X-Graf2®** powders come in a wide range of colors and textures and are the ideal application for mailboxes, highway signs, lockers or any other potential target of the graffiti vandal.
